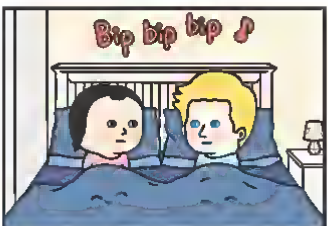
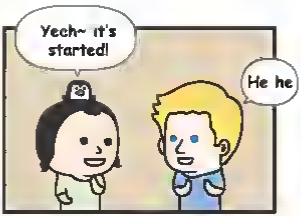
But one problem was...

... That we didn't have a TV license so we couldn't watch the matches at home.

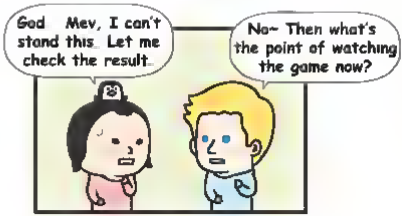


But in the morning...

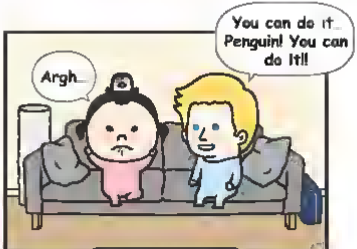
I felt as though my life
was getting shorter every time
I watched one of the matches.



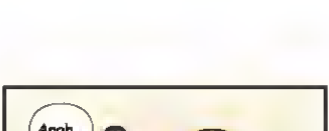
So the festival atmosphere started in us too.



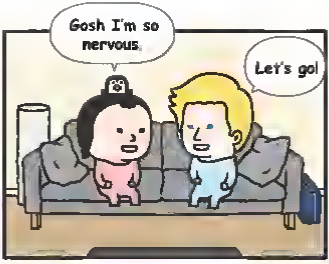
God Mev, I can't stand this. Let me check the result.
No~ Then what's the point of watching the game now?



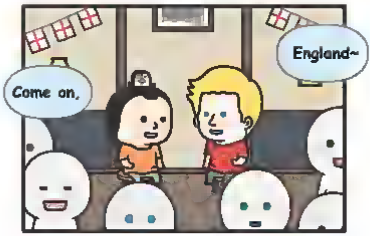
You can do it. Penguin! You can do it!!
Argh...



It's only a sport

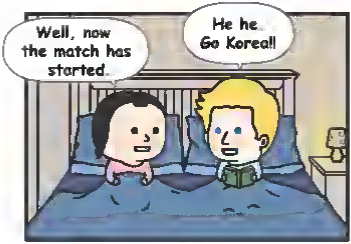


... The first thing that we did was pressing the play button of the game.



The was no trouble to watch England's games because we could just go to the pubs

So I decided to watch the game later.



Finally the Korean team's first match started.

However, the real problem was all about Korean games.
